Press Release

Comcores announces hiring of key resource for engineering

Copenhagen, Denmark, Apr 1, 2018 – Denmark Headquartered Comcores ApS, the leader in digital IP's for communications systems, is pleased to announce the promotion of Jørgen Carstensen in the company, where he has taken on the role of Engineering Manager.

Jørgen Carstensen comes with a significant experience in ASICs and FPGA platform technologies and has held various leading positions at Napatech and Cobham. In these positions, Jørgen was a key stakeholder in ensuring the quality of the products being brought to market.

"We are thrilled with the experience and knowhow that Jørgen brings to our team," noted Thomas Nørgaard, CEO. "He brings an extremely high level of development expertise and an exceptional quality oriented spirit that is essential to the culture at Comcores."

According to Jørgen, "Comcores is exactly the kind of opportunity I was seeking. As a leading FPGA/ASIC company within communications, Comcores offers me exciting challenges and opportunities to work with the state-of-the-art technologies in an environment making use of the latest and greatest in tools and processes."

One of Jørgen's key responsibilities will be overseeing the direction of the Comcores technology platform and continuing to improve the capabilities and products offered to Comcores customers. The importance of delivering products that are robust and reliable is key to Comcores and its customers.

About Comcores

Comcores is a leading provider of silicon agnostic IP-cores for communication systems. State of the art know how and practical experience enabling connectivity in communication systems are key elements in Comcores's delivery of unique, high quality, production-proven IP-cores. Comcores solutions not only accelerate development and cut costs, they increase overall design reliability and project predictability.
