

Project Manager

For our growing business we are looking for a talented and dedicated Project Manager with passion to drive our leading development projects to success. The position is located in our HQ in Kgs. Lyngby.

Who We Are

Comcores is a leading global provider of silicon proven intellectual property (IP's) where we act as first-movers for solutions towards global blue-chip companies within aerospace, automotive, industrial automation and wireless.

We strive to front new technologies that enables next generation and are engaged in universities around the world, powerful partnerships and industry relations that can ensure our competitiveness and enable new solutions.

Comcores is recognized among global market-players for our responsiveness, our agility and our professionalism in making and supporting cutting edge developments across the digital channel and radio value chain.

Our team consist of approximately 40 people with various technical engineering background spread across 10 (+) nationalities and several European locations with HQ in Kongens Lyngby, Denmark. We pride ourselves with having a team of the best executers, with a mindset fostering a team-spirit and focused on achieving great results. We deliver what we promise.

The Open Position

Comcores is looking for a motivated and passionate project manager to join the operations group referring to Comcores COO. You have an interest in being on the forefront in the industry, as you will be leading complex digital engineering projects for tomorrows technologies.

Position Content

You will be responsible for managing several projects in parallel and be the projects point of contact for all involved parties. You will be responsible from the initiation of a project and until the product is delivered to the customer. You will ensure that projects are executed according to development processes and make sure that quality, reviews and

gates are in compliance with the customer agreements.

You will be coordinating the team's technical assignments to ensure efficient and structured workflow.

You will be working closely with the rest of Comcores and the program management team to on top of existing global developments and trends in the industry. You will contribute to continuous improvement of our development processes to ensure more efficient workflow and shorten time to market.

Main Tasks

You will be doing Project Management for digital projects that typically will involve several sites and several disciplines

The tasks will span, but not limited to:

- Planning, prioritize and scheduling team activities in MS Project/JIRA to achieve coordination and meet project deadlines set by marketing or customers
- Helping the team to establish standards and methods for assessing progress and measuring performance
- Arranging and conducting meetings to solve problems and make decisions in a systematic way
- Facilitate open communication in order to strengthen innovation, initiative and a great working environment in the project teams
- Regular communication about milestones on track / not on track, progress and risks to Program Management

Your Background

You are an engineer and hold a Master's or Bachelor's engineering degree. You have just graduated or have few years of experience.

Personally, you are good in communication and wish to be in a job with many stakeholders, and are having the ability to both listen and get the message through. You are structured, keep focus and can manage several tasks in parallel.

Project Manager

You feel motivated by being the best within your field and want to put your mark on a company in rapid growth.

What is in it for you?

This is an outstanding career option to further your career in a fast paced and dynamic environment.

We offer a versatile and challenging job opportunity in a highly talented international working environment with competitive benefits. We have a flat organizational structure with room for entrepreneurship, initiative and creativity that positively impacts our culture.

You will get the opportunity to influence this unique growth story and work with well-known global blue-chip customers.

If this sounds appealing and the position content matches your skills then we would very much like to hear from you.

Please send us your resume and cover letter to job@comcores.com. Applications are assessed on a continuous basis, which is why we encourage you to send your application as soon as possible
